## SKILL

• **Languages:**
**HTML/CSS**
**Javascript, TypeScript**
• **Framework:**
**Node.js**
• **Library:**
**Express JS, Socket.IO, Bootstrap 5,**
**NestJS**
• **Database:**
**Mysql, MongoDB**
• **Other technical skills:**
**GitHub, Trello, Docker**
**UML diagram,**
**Figma**

## LANGUAGES

• My English skill is basic.
• I can read and research documents.

## ACTIVITIES

• **WORKSHOP ABOUT IT,**
**SOFTWARE**

• **VOLUNTEER ACTIVITIES**

## ABOUT ME

◇ As a Intern Software Engineer, I want to use my academic knowledge and programming skills to contribute to dynamic software projects. I'm excited to work with experienced and learn from teams, I'm commifled to delivering efficient and innovative solutions.

## EDUCATION

◇ **INFORMATION TECHNOLOGY**
DUY TÂN UNIVERSITY
2021-2025

## PROJECTS

◇ **IT Recruitment**

10/2024 - 11/2024
demo: https://github.com/quocthinh672003/WebTuyenDungIt

_Brief:"Built web IT recruitment using NestJS and MongoDB with MVC architecture. Implemented RESTful APIs, JWT authentication, and DTOs for data handling. Features include CORS protect the API and admin permissions,... Frontend handled by another developer, completing the full-stack application."

_Techs:
+ FE: HTML/SCSS, Vite, React, TypeScript.
+ BE: NodeJs NestJS, Postman, Mongodb, TypeScript.

◇ **Courses Management(member:1)**

05/2024 - 07/2024
demo: https://github.com/quocthinh672003/demo

_Brief: I developed a server-side course management web application using the MVC model. I interacted with the database using MongoDB with HTTP methods, implemented a RESTful API, and used authentication tokens. I also encrypted user passwords using bcrypt.

_Techs:
+ FE: HTML/CSS, Bootstrap, SCSS , Javascript.
+ BE: NodeJs Express, Postman, Mongodb .
