- Math tutor for 8th and 10th grade student

- Workshop about IT, Software

PROJECT EXPERIENCES (AT COMPANY)

MENTAL HOSPITAL (GROUP WORK: 10)

02/2024 - Now

Demo: https://bvtamthandanang.com/

_**Brief**: An online platform designed to register a variety of services related to different types of diseases. Users can explore information about hospitals, specialist doctors, and treatment programs. The platform offers easy-to-use search functions, allowing users to quickly find and register for the services they need.
_**Techs**:
  + FE: **HTML/CSS**, Bootstrap, SCSS , **Javascript**, **Jquery**, Select2, etc.
  + BE: **Laravel**, Laravel-permission, Laravel-visits, Laravel-excel, Ckfinder, Ckeditor5, Postman, **Mysql**, etc.
_**Main Tasks**:
  + Collaborated with the Business Analyst to **analyze the database**. I utilized the **Laravel framework** to build the admin page (CMS) and integrated a search engine to implement search functionality.
  + Implemented CI/CD pipelines through GitLab Actions and deployed the project to hosting.

COMMERCIAL COLLEGES (GROUP WORK: 8)

09/2023 - 12/2023

Demo: https://cdtm.edu.vn/

_**Brief**: A website designed specifically for a business college, showcasing a variety of programs and courses related to commerce and business studies. Users can browse through detailed information about available courses, faculty profiles, admission requirements, and campus facilities.

_**Techs**:
  + FE: **HTML/CSS**, Bootstrap, SCSS , **Javascript**, **Jquery**, Select2, etc.
  + BE: **Laravel**, Laravel-permission, Laravel-visits, Laravel-excel, Ckfinder, Ckeditor5, Postman, **Mysql**, etc.
_**Main Tasks**:
  + Collaborated with the Academic Department to **analyze curriculum data**. Utilized the **Laravel framework** to develop the college's course management system, integrating course materials, student evaluations, and user accounts.
  + Implemented CI/CD pipelines using **GitLab** Actions for continuous integration and deployed the project to hosting.
